Attendee(s):	Name	Title	Email
	Mr Brian Teuber	VP Internationa Sales	briant@evangersinternational.com

Company Information

Year Founded:	1935	Type of Business:	Manufacturer/Processor
Company Description:	<p>Evanger's, founded in 1935, is known for manufacturing super premium, high quality meat-based foods, and is one of the only US canneries that is certified to export to the EU. Evanger's has certifications from the USDA, Organic, and Kosher for Passover by the cRc. For years, Evanger's has been exporting its own products as well the products of its private label customers into North America, South America, Europe, and Asia, making the export process easier for you and your company. Our on-site staff can also help you through the lengthy export documentation process to facilitate customs clearance. In 2003, Evanger's was the first pet food company to create a food that was packed by hand instead of machine by putting whole pieces of fresh meat and vegetables into the cans. This innovative process started another new trend in pet food, and we call it, "People Food for Pets". It is a truly unique process, and there is nothing else similar on the market. Evanger's invites you to take a tour of its manufacturing plant with Rachael Ray: http://www.evangersdogfood.com/?p=rachaelray. Products: 100%</p>

Company Information

Year Founded:	2007	Type of Business:	Manufacturer/Processor
Company Description:	<p>Our pet food company was launched in 2008, and is currently in nine formulas of dry dog and cat food and nine formulas of wet food. It is privately owned, and the the food is all natural ultra-premium at good prices. We use the most highly-certified producers with EU certification and which have many years of experience exporting all over the world. We use only the highest-grade ingredients that are strictly tested before the food is produced. The dogs and cats love the taste (excellent palatability). Our brand, Grandma Maels Country Naturals, is widely sold in most of the US but is now being exported only to China, Hong Kong, Taiwan and Japan, so we have exclusive territories available in much of the world. Our Hong Kong/China Distributor is growing at more than 100% per year. We are looking for exclusive distributors who will be awarded the rights to market our product in their areas.</p>

Company Information			
Year Founded:	1998	Type of Business:	Manufacturer/Processor
Company Description:	The Omega One is the premium pet food brand for aquarium fish, small reptiles and amphibians. Our patented process utilizes MSC-certified whole seafood which is sustainably harvested off the Alaskan coast and processed in Ohio. The result puts Omega One in a category by itself. In 2014 we successfully exported to over 30 countries worldwide and look to grow that number to meet the rising interest in premium pet foods in many markets.
